Good fit for

Sam's on-the-go lifestyle doesn't give him a lot of time to see a doctor regularly. He's looking for an easier way to get the care he needs – including help managing his high blood pressure. Something quick and easy – similar to how he banks and buys groceries online.

On Hand is a great fit for his healthcare needs – and his budget. It's a convenient and quick way for him to see the doctor anytime – from his phone or computer, and as often as he needs for \$0.
